

MONMOUTH COUNTY SHERIFF'S OFFICE

BICYCLE SAFETY

SHAUN GOLDEN, SHERIFF

A Message from Sheriff Shaun Golden

The Monmouth County Sheriff has instituted an agency-wide commitment to excellence. The men and women who serve here are dedicated to maintaining the highest standards of professionalism and excellence in the field. We will bring together the right team, provide the most comprehensive training, and utilize the latest technology to remain among the premier law enforcement agencies in the nation.

As testament to our commitment the Monmouth County Sheriff's Office is the only county in the state to achieve "Five Star" accreditation of the Law Enforcement Division, the Corrections Division, Correctional Healthcare, the Communications Division, and the Monmouth County Police Academy. We serve as a role model to other Law Enforcement Agencies throughout the state and will continue to raise the standard of law enforcement excellence in New Jersey. Teamwork, training and technology are three essential tools the Monmouth County Sheriff's Office uses to ensure our county remains a great place to live, work and raise a family.

Bicycle Safety Tips

- Before you get on your bike, put on a helmet
- Use caution at all times, especially before riding onto a new street
- Obey, stop, and yield to all traffic signs
- Check behind you before swerving, turning, or changing lanes
- Safety check your bike before riding

A person under 17 years of age shall not operate, or ride upon a bicycle as a passenger, unless that person is wearing a properly fitted and fastened bicycle helmet which meets the standards of the American National Standards Institute or the Snell Memorial Foundation's 1990 Standard for Protective Headgear for Use in Bicycling.

A bicycle helmet protects your child's skull, brain, and face.

Helmet Safety Tips

- Purchase a helmet that meets the safety standards of the American National Standards Institute.
- Choose a helmet that fits well prior to adjustment. Avoid a helmet a child will "grow into."
- Wear the helmet level on the head, not tilted back on the crown or pulled low over the forehead.
- When a helmet is fitted properly on a child's head, only two fingers should fit under the chinstrap.
- Remind your child to always wear a helmet and set an example by wearing a helmet at all times when bicycling.

Brain injury is the leading cause of death and disability in bicycle crashes.

In 2024,

comprehensive tallies from the National Safety Council showed that preventable bicycle transportation deaths were nearly **1,400**.
